

Module 2: Medications, Reproductive Health, Exercise, and Sleep

[INTROM2] In this set of questions, we ask about a few topics that affect your health. These topics include your current and past use of medications, your physical activity (including exercise), and your sleep habits.

[DISPLAY ADDITIONAL INTRO TEXT BELOW IF SEX = 02 OR IF SEX = 03 AND SEX2 = 07 or 06]

We also ask some questions about your reproductive health. These questions will focus mainly on your menstrual periods, pregnancies, and if you have used any hormonal medications.

Medications [SECTION 1]

[INTROMED] First, we will ask you about your current and past use of different medications. This information will help us understand your medical history and current health status.

When we ask you to give an exact amount of pills, please make your best guess if you are not sure. If you take half a pill, please count this as one pill.

Pain Relievers

D1. [PAINREL1] Have you ever taken any of these medications at least **4 times a month for 6 months or longer**? Select all that apply.
