Module 1: Background and Overall Health

[INTROM1] Welcome, [insert participant name]! This survey is split into sections. Each section has questions that ask you about a wide range of topics. Our goal is to collect information about your medical history, family, work, and health behaviors. You can answer all of the questions in each survey section at one time, or answer some questions, pause, and return to answer the rest later. If you pause, your answers will be saved and you can pick up where you left off. You can also skip any questions that you do not want to answer.

For some questions, you may see a word or phrase that appears as a button. Clicking the button will show more information that might help you answer the question. Here is an example. *[Text that appears when "example" is selected: This is an example of how additional information will be displayed.]*

Let's get started.

[INTROBAC] First, we are interested in learning some general information about you, your medical history, and your family history. This information will help us better understand your current health status. It will also help us understand how your health may be different from the health of other people.

Please remember that we protect your privacy. We remove information that can identify you from your survey answers before we share them with researchers.

Norwood Image	Updated Text (Reviewed 5.7.2020)
	0 Full head of hair with no hair loss.

	1 Mild hair loss at the sides of the forehead, but not as far back as the ears.
	2 Moderate hair loss at the sides of the forehead as far back as the ears, and mild loss from the center of the forehead.
	3 Mild hair loss on the sides of the forehead, but not as far back as the ears, and mild loss from the center of the forehead. Also, hair thinning on the top (crown) of the head.
	4 Moderate hair loss on the sides of the forehead as far back as the front of the ears, and moderate loss from the center of the forehead. Also, mild baldness on the top (crown) of the head. The two areas of hair loss are separated by a section of hair that goes across the top of the head.
	5 Moderate hair loss on the sides of the forehead, as far back as the middle of the ears. Also, moderate baldness on the top (crown) of the head. The two areas of hair loss are separated by a thin strip of hair that goes across the top of the head.
	6 Moderate hair loss on the sides and front of the forehead that are continuous with severe baldness on the top (crown) of the head. There is no clear strip of hair that separates these areas of balding.

	7 Severe hair loss on the sides and front of the forehead that are continuous with severe baldness on the top (crown) of the head. There is no clear strip of hair that separates these areas of balding. The hairline at the sides of the head is at, or below, the temples. Only a small strip of hair remains around the ears and at the back of the head.
FIG 2 	8 Mild hair loss across the entire forehead, but not as far back as the ears.
	9 Moderate hair loss across the entire forehead, as far back as the middle of the ears.
	10 Severe hair loss across the entire forehead, as far back as the back of the ears.
	11 Severe hair loss across the entire forehead, beyond the back of the ears.
